

Brief Introduction of Zhejiang Sci-Tech University Tongxiang

Research Institute

Zhejiang Sci-Tech University Tongxiang Research Institute was established on November 1, 2018 by Tongxiang Municipal Government and Zhejiang Sci-Tech University. With the guiding ideology of “facing key fields, gathering advantageous resources, enhancing innovation capabilities, and promoting industrial development”, Tongxiang Research Institute has joined with domestic and foreign superior scientific and technological resources to strive to break through the technical bottlenecks of related industries, strengthen the shortcomings of the industrial chain, deepen the integration between informatization and industrialization, promote the vertical integration of the industrial chain, and form a batch of influential landmark achievements.

By striving to build a technological innovation team with core competitiveness to form a group of key and common technological achievements, the institute could support Tongxiang to enhance the independent innovation capability of dominant industries, and promote the adjustment of industrial structure, transformation and upgrading, brand innovation, design and research of Tongxiang, which can boost the

comprehensive, harmonious, and sustainable development of both Tongxiang's economic society and scientific research, education, and social services of Zhejiang Sci-Tech University
